**D**ear Friend,

How would you like to get **tons of traffic, sell a lot more products** and **establish your own credibility**...all at the same time?

This is one of the best marketing tactics I've used myself for free traffic and auto-pilot profits, and it's something you can do easily too...listen...

**One 'secret' I've always talked about (if anyone care to listen) is to use leverage in your business.**

You can employ leverage in many ways, one of which is what I'll be touching on today.

To get traffic and profits from prospects, you must first establish yourself as a credible person, and the most effective way to do that is not to pitch or hype, you can do that a few times but it does nothing for your **long-term business**.

In effect, you're better off concentrating on...

### **...PROVIDING VALUE**

Look, once you give value and quality information, people will naturally be drawn to you and want to do business with you. It's rooted in human psychology. It works.

How do you provide this value quickly and easily then?

**On the Internet, besides giving your own time and mentoring, the fastest method to do that would be to give good old quality content.**

This is the concept I termed as **"turning content into cash"** and it also ties in closely with preselling to make you more money. Much more.

One way to keep churning out new content is to simply:

### **...REPACKAGE old content.**

What do I mean?

*If you've written a great article previously, you can easily repackage and/or edit this same article into web content, blog notes and mini ebooks.*

## “How To Turn Your Content Into Cash!”

This does NOT require rocket science to understand or much effort to implement.

Back to the original question...

How do you get more traffic, make more profits and establish more credibility with this one simple concept of "turning content into cash"?

Here's what you can do:

- 1. Repackage or create new quality content**
- 2. Turn it into mini ebooks**
- 3. Make it viral**
- 4. Create Incentives so people want to pass it along willingly**

I'm sure you don't need me to tell you what that can do for your **LONG-TERM traffic and profits**.

Here's all the 'equipment' you need to apply this:

- 1. Microsoft Word**
- 2. Adobe PDF**
- 3. A copy of Viral PDF**
- 4. Some commitment and time**

Now out of the 4 items above, 3 are free.

Viral PDF costs \$67 but it's a powerful investment to make.

There're no other similar solutions on the planet to that, or any free alternative, or you can be sure you'll get them from me.

So it's up to you to decide if the investment is 'worth it'.

If you think it is without a doubt, here's the link:

Oh yes, I must have failed my math, Adobe PDF is NOT FREE.

In fact it costs more than \$200+. Well here's perhaps the best no-cost alternative there is. It'll allow you to create PDFs without needing to spend on Adobe.

With PDF 995, you can create as many PDFs as you want. You should also get the sister software "PDF Edit" and with just a few clicks create live links.

Here's a very good guide on using PDF 995 to make your own mini ebook, it's called "Create Your Own eBook!" and you should read it:
